Game Notes.....Director of Pro Scouting Scott Brown did it again as Paul DaCosta made his Bison debut a great one going 3 for 4 with a HR and 5 RBI...speaking of Brownie, sorry I missed the news earlier in the season but congratulations are in order for Brownie and his girlfriend Jackie on their recent engagement...besides Arredondo's team leading 4th homer of the season and DaCosta's blast, Brownie also connected for his first long ball of the year...The Natural was able to pitch the first four innings of the game and pitched well before leaving Marine, putting his cape on, and taking his talents to a Somerville birthday bash...it appears that both Greenway and the B2 Bombers are about to suffer the same fate as the Bridge Rebels and pull the plug on the remainder of their seasons...Greenway has been a total disaster showing for just one game while the Bombers, who struggled to stay afloat last season, have not showed for more than a couple of games this season...thanks again to the Clem Dog for making the 52 mile trek to Marine on a tough traffic night and suiting up for the Bisons...Clemmie hit the ball well going 1 for 1 with a SAC fly....Maria Batista made it through the entire game unscathed...the Bisons will return to their home away from home for their next game on Wednesday August 1st when they face the Allston Rats at Boston Common
