

## **Baltimore Passenger Arrivals.**

In an attempt to find the arrival record for my grandmother Mary (Heresco) Warholic who supposedly came to the US at the age of 13 weeks, I searched these arrival records page by page because I could not find her name or her mother's name in the index. During this search, several years ago, I found the following records relating to "Smerek" area origins and "Houtzdale" destinations. These were only the records that "caught my eye" and others may have been missed. This search covered microfilm rolls 17, 18, 19, 21, 22, 23, 24, my notes are not clear if roll 20 was searched.
