## Transient Billeting

Hilltop Cottage (10)

Cottage #6053 (11)

Cottage #6057 (12)

BOQ #6071 (13)

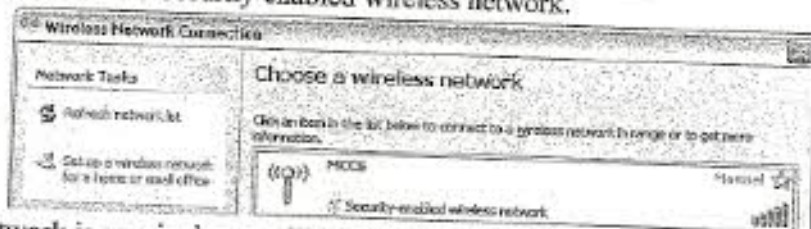

## HOW TO CONNECT TO MCCS WiFi

The following instructions apply to the Windows XP Wifi Manager. Other managers operate in a similar manner.

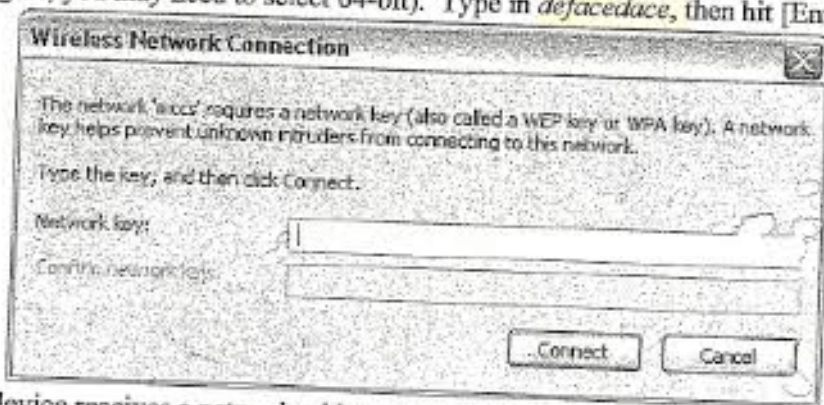

1. In the Windows Taskbar, click the Windows Wifi Manager.

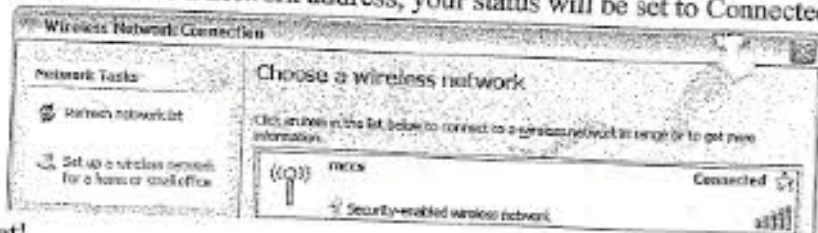

2. Double-click the MCCS Security-enabled wireless network.

3. After the network is acquired, you will be prompted to put in your 40-bit WEP key (for other Wifi managers, you may need to select 64-bit). Type in *defacedace*, then hit [Enter].

4. Once your device receives a network address, your status will be set to Connected.

5. You're all set!
